Animal Care & Control provides animal shelter operations, animal adoption centers, spay/neuter and low-cost vaccination clinics, animal ordinance enforcement and public education. These programs work to reduce the number of stray animals in the city, minimize the threat of diseases, such as rabies, and prevent injuries caused by animals. It's the shelter's goal to find loving homes for all the animals that end up in its care.

May 2018 Statistics

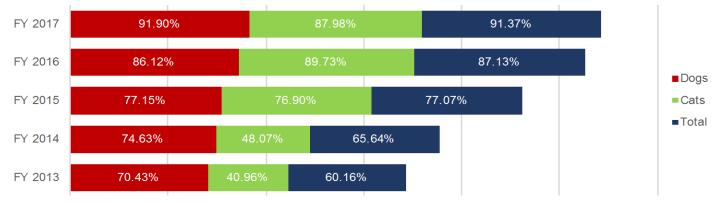

This chart reflects the monthly movement of animals in and out of the shelter. Most significant is the shelter's live release rate, which indicates how many pets successfully left the shelter either through adoption, rescue or return to owner. The daily challenge of managing a municipal shelter is daunting because Fort Worth Animal Care & Control is mandated to accept any animal that comes from within city limits.

May Live Release Rate: 87.74%	Dogs	Cats	Total
BEGINNING SHELTER COUNT 5/1/2018	540	92	632

Live Release Rate

The "live release rate" indicates how many pets successfully left the shelter either through adoption, rescue or return to owner. The FY2016 annual rate of 87.18 percent is another accomplishment for the shelter and its partners. These statistics are nearly unobtainable by many government-operated shelters due to lack of resources, funding and collaborative partnerships.

Return to Owner

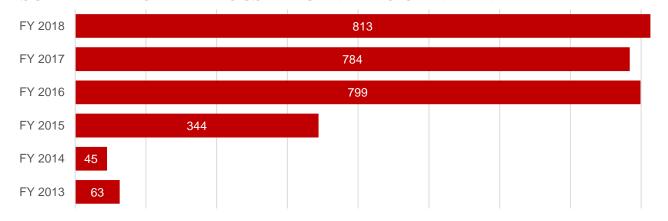

A huge effort is made by animal control officers working within the neighborhoods to return stray/lost pets to their owners without impounding the pets at the shelter. Pets who wear collars with city license tags or pets who are microchipped have a high rate of being returned to their owners.

Annual Spay and Neuter Surgeries

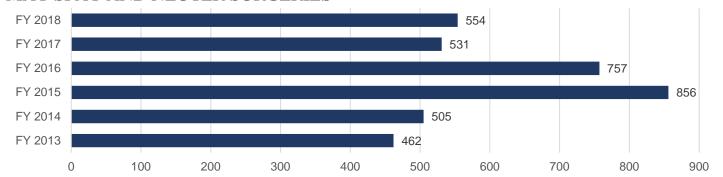

In order to reduce the stray pet population and to protect the public from safety issues that can occur because of unaltered stray animals, all pets that land in Fort Worth Animal Care & Control are spayed or neutered before they are adopted, rescued or returned to owners. This chart provides an overview of the dramatic intake of animals coming into the shelter and the mandatory spay/neuter surgeries. FY 2015 and part of FY 2016 Fort Worth conducted a pilot program of Return to Field for stray cats where the cats were trapped, spayed/neutered, and vaccinated and returned to trap location.

Foster Program – Cowtown Crashpads

In 2015, Fort Worth Animal Care & Control created its first foster care program called Cowtown Crashpads. This program has been a huge success in allowing pets to have the time they need to become adoptable. Pets that enter into the foster program may be recovering from illnesses, injuries or may include newborns that are too young to be adopted.

Volunteer Program

A new volunteer program was established in 2014 to provide much needed assistance at the animal shelter, as well as its two PetSmart Adoption Centers. The program has steadily grown to include volunteers who regularly play with and socialize the pets, offer support to staff members, and assist with special adoption events, such as Clear the Shelters, Shelter Pets Rock and the PetSmart Charities National Adoption Weekends throughout the year.

VOLUNTEER HOURS

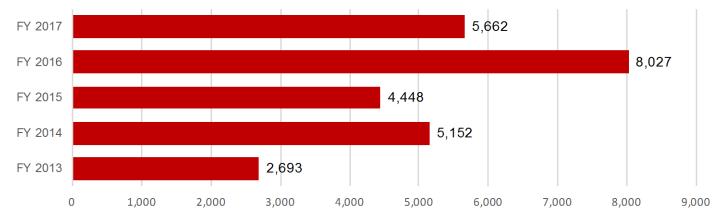

Enforcement and General Citations

Fort Worth Animal Care & Control provides enforcement of a number of state laws and city ordinances to protect the community at large.

ANNUAL CITATIONS ISSUED

The number of citations issued depends on the number of stray animals reported in the City of Fort Worth. In 2015, FWACC implemented a new program of returning dogs to their owners in the field. This program, combined with an adding a stray team program in 2014, resulted in a decrease in the number of citations written in 2015.

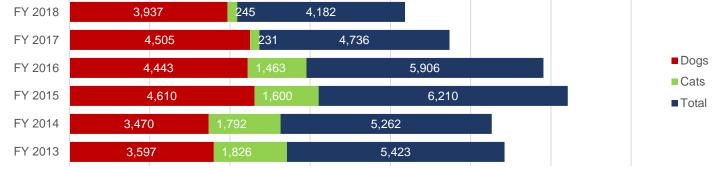

Stray Animal Capture

In 2014, Fort Worth Animal Care & Control furthered its efforts with a new focus on removing stray animals from the streets in our community and implemented the stray team program. The stray teams' singular focus is to capture stray animals within the city. There are currently two teams of three officers. Their efforts, in conjunction with other animal control officers' efforts, have also included record-setting numbers of dogs returned to their owners in the field.

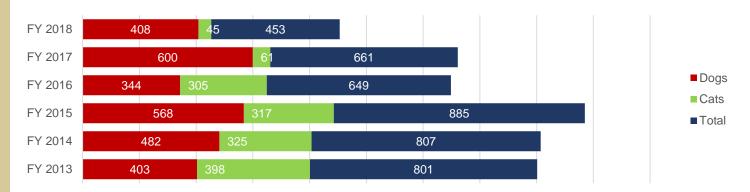

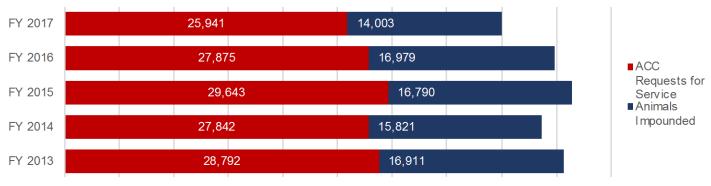

MAY STRAY ANIMAL CAPTURE

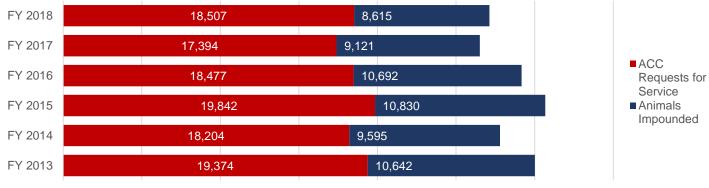

Requests for Service

Requests for service typically include all animal welfare issues, such as stray or injured animals, animals in danger, or wildlife and livestock issues.
